

Mayekawa Chemical Process Europe is specialised, amongst other, in applications involving gas and helium compressors

- Mayekawa Chemical Process Europe is the European division of Mycom Mfg Co (compressor manufacturing, Japan) specialised in petrochemical, oil & gas and helium applications involving Mycom oilflooded screw compressors, for gas compression or refrigeration purposes.
- Mayekawa provides engineering and production of complete skid-mounted compressor units, according to the customer's specifications.
- Mycom compressors have been used successfully in scientific helium applications like CERN.
